

8-Week Glute & Sculpt Tracker

6 days a week · At home · Check off each exercise every week

Color Key	
Glutes (upper glute focus)	
Arms (bat wing blaster)	
Core / Waist / Lower Abs	
Legs (tone)	

Equipment

Loop resistance bands (light, medium, heavy) · Adjustable dumbbells or 5/10/15 lb pairs · Ankle weights (optional, great for kickbacks) · Yoga mat · Sturdy chair or bench

Rules for Max Results

- Rest 45-60 seconds between sets. Sunday is your rest day - take it, muscles grow on rest.
- Progressive overload: every week add reps, a heavier band, or more weight. Beat last week's numbers.
- Protein: aim for 0.7-1 g per lb of bodyweight daily. This is what grows glutes and reveals a flat stomach.
- Squeeze glutes hard at the top of every rep - hold 1-2 seconds. Mind-muscle connection matters.
- Write your weight/band used in the checkbox each week so you can track your overload.

MONDAY — Upper Glutes + Arms + Core

Exercise	Sets x Reps	W1	W2	W3	W4	W5	W6	W7	W8
Banded hip thrusts (feet close, band above knees)	4 x 15
